

Bob took over the mission lead from John and led another medical mission to St. Charles clinic.	Support for the St. Charles Borromeo School began	After 9 months of convalescence in N. AL, Eric is taken back to Haiti by Fre Leandre	Orphanage, school and clinic support continue	Bob is asked to join the LWW Haiti Network Team along with Chris McRae to form a group to give direction for the future of LWW water systems in Haiti	Began our first business venture of a plantain field in Signeau on PFST land (to be destroyed by a hurricane later in the year)	Cholera outbreak in Carice area, so installation is moved from Miragoave to monastery in Carice	New monastery and school built		
John Wolfsberger forms a small team, gets connected with the Haiti Parish Twinning program out of Nashville and is assigned to St. Rose de Lima Parish in Leogane.	Eliane graduates from nursing school after 10 years of going to night school riding 20 miles into Carefour and back in a taptap	Regular quarterly support for St. Charles Borromeo School (PAV monastery) teachers begins	The orphanage is now up to 28 kids	5 Haitians are trained in the use and preparation of clean water so they can train the communities	Hired Bertone part time to do inspection of water systems in Haiti	Plans are drawn up for new orphanage building should we be able to find the money. Land is finally found and purchased. Land is not hard to find, its finding a clear title that is difficult. Building is designed for 30 kids	Housing projects are started; the Canadian's support comes in from many sources inside and outside the diocese	Two more water purification systems are installed. Plans begin to expand the orphanage	
	We meet Garry Joseph, a local weaver and entrepreneur	The brothers lose their truck to a tragic accident hauling water up the hill to the monastery. 7 Haitians were killed. Eric is thrown out of the truck and his back is broken in 7 places. 30 days later we pick him up in PAP and St. Vincent in Birmingham repairs his back. He is unfortunately paralyzed from the waist down	Scouts build 75 desk kits to ship to Haiti for St. Charles school	Water system from clinic is moved to the monastery to support the school, primarily for the school kids noon meal. Cases of intestinal problems continue to dramatically fall for people who drink the purified water	Installed water system at Port Salut monastery and Catholic Formation center in Jacmel	Fre Olizard takes his final vows in Aug and Bob is allowed to be the EM to serve him the Ko de Kris	Housing projects are started; the Canadian's build three wooden buildings for NDC.	Two more systems are installed in June	LWW warehouse is opened for business and another Haitian is put on the payroll by LWW. LWW stocks the warehouse with \$17K of parts. Hires new warehouse manager June
	First bank accounts with Fonkoze are established			Shipped and installed a 9KW generator to the monastery for electricity for school and primarily for the purification system. in November	Fre Olizard takes his final vows in Aug and Bob is allowed to be the EM to serve him the Ko de Kris		Chris McRae and Bob get a ride to Haiti 10 days later with backpacks and no ride home. Assess damage to all assets supported around the country	Apply for a grant to CRS to put up a VoTech school at PAV. Grant received. Diocese of Erie and Holy Spirit share the cost of the match-	
	HSHM begins to support a doctor part time at St. Charles and still does today						Jan 12, 2010 – A 7.3 Richter scale earthquake hits Haiti and levels most of Leogane including much of the monastery which is 10 miles away along with many houses in the community	Bob address the PAV community in Creole and thanks them for their support	VoTech School for carpentry opens with 25 young people, 5 are girls

John makes a couple of trips and organizes a medical team trip in 2000 to the St. Charles clinic in Palmiste au Vin.	Scouts made desks for the school and shipped to Haiti w/ clothing drives to St. Rose and orphanage.	Garry Joseph builds his first house and his son Darry is born. He continues to oversee OPAL Clinic	Miller welder is donated and shipped to PAV monastery. 2 <sup>nd</sup> water purification system is installed at River Froide (mother house)	Two clinics, school and orphanage still being supported on a regular basis. Garry overseeing OPAL Clinic in Leogane	Bob begins driving in Haiti thus giving us more flexibility to get to more places	Fre Olizard becomes the prior of the PAV monastery	Water system number #10 is installed at NDC with solar power for system and lights at night	Plans begin to implement a formal warehouse in Haiti	½ acre land is purchased, well is dug, storage unit placed on land, earthquake proof building is designed and wall surrounding the property is finished
Eliane already has a half dozen kids in the yet to be named orphanage	Eliane has about 20 kids and moved to a rented facility in Signeau(East Leogane)	Bob, Kathy and Mitzi go to the first Living Water for the World (LWW) seminar in Birmingham to learn about water purification	Fre Olizard and Lama come to the US and go to Clean Water U with Bob in Oxford MS	Installed more pumps and tanks in main monastery so brothers now have running water	Hurricane Gustav strikes and Bob rides out his first hurricane. Plenty of water in Leogane afterward, but kids are OK	Annual support of kid's education becomes a popular program at Holy Spirit	HSHM hooks up with Huecco, a Spanish rock star who has taken a love to NDC also. They raise money to put a stone wall around the	Eliane put up another school building for grades 2-3. She is now selling water and taking in kids from the community to her school	
	Welding and some other work is done around St. Rose. Computer lab set up	First water purification system is put in St. Charles clinic with positive health effects	Fre Leandre is named General Superior of PFST	Clean water is pumped up to the school kitchen. This was the first running (and clean) water they had.	Begin the process of looking for new land for the orphanage	The mission that began with a modest \$5K-\$10K per year going into Haiti is now getting very close to \$100K per year for schools, orphanage, clinics and economic islands of opportunity plus water purification systems	Chicken and goat farm are rebuilt in Signeau and PFST begin egg production of 750 per day	A team of 3 installs 5 water purification systems in 3 weeks in March	Two more sites are surveyed for water systems in 2013. School, orphanage, clinic are all actively supported
Bob McCoy joins John on a couple of trips to support St. Rose.	Because of lack of accountability on the priest's part at St. Rose, twinning parish is shifted to the Petite Freres St. Therese	Support for the St. Charles Borromeo School began		A Christmas w/gifts was provided to the kids at NDC thanks to a group of parish-	A Notre Dame de la Charite is put under a formal charter and registered with the country		HS parishioners donate money for 13 houses and the German and Swiss Red Cross provide funding for 600 more		
		SVdP around the SE region donates \$12,000 for a 5 ton Mitsubishi truck for PFST PAV					By the end of the year, the country is beginning to recover		
							Eliane builds building for small school on property for K – 1 <sup>st</sup>		

19th Water purification sys-

Spent 4 days teaching girls how to sew at NDC

Participated in countrywide operators and owners of LWW water purification systems. 70 attended

Inspected many of the LWW water purification systems

Began teaching English as a second language ESL at NDC

Provided 2 day water purification training for in country techs. Spent one day with farmers in Café Lomp্রে discussing bio-diesel potential for Menseiun seed

2013

Launched Children of God campaign right after Easter to raise \$250K for 6400sf orphanage By Dec 31st over 180K had been raised with remainder in early 2014.

Continued to support Dr. Blaise in St. Charles Clinic 2 days a week

Provided funds for educating 50 children plus uniforms, lunch and books at NDC school

Continue to provide teachers salaries at PAV school Provide food and medicine for 2 special needs children with HIV. One sadly died this year. Provided burial costs.

Dedicated NDC building culminating a 2 yr project

Installed 20th pure water system at NDC

Set up library and cataloging system for kids at NDC

Continued work on ESL but shifted program to teachers. Funded teaching English to 4 people.

Installed statues of Mary & Joseph and large crucifix in NDC chapel and large statue of Mary outside the entrance to NDC

Installed fire escape at NDC. Project managed by student volunteer

Chickimuga epidemic breaks out in Leogane and NDC. Medicine is brought in to help suffering.

2014

Installed stain glass window in NDC chapel

Purchased a 2002 Land Cruiser for mission

Installed 4KW solar power grid at NDC. Sufficient for all electrical needs

Participated in baptism of 18 girls & 1 boy at NDC

Spent a day with 10 destitute families in Café Lomp্রে. Provided immediate relief, but they all need help with kids education. Need 12K to do this.

Sent first missionary to Haiti to teach ESL

Continued to fund kids, teachers and Dr. Blaise and special needs kids

Built closets at and battery bench at NDC

Painting classrooms in the monastery

Installed 21st water purification system at Bos Comier

Continued the English as a second language program in Leogane

Dug new 120'well at NDC producing 50 gal/min

Purchased another plot of land next to NDC for Eliane's garden. Also finished purchase of another land plot next to NDC for special technical orphanage

Reviewed site survey at Montage la Croix and turned down due to lack of accountability

2015

Installed pump in well at St. Michael du Sud

Upgraded water purification system at Riviere Froide. Bob seriously sick for 2 days

12 girls at NDC confirmed

Major event at HS-Thank you dinner with Htitan trimmings for all. Lou and Vivian did a wonder-

Initiated Water Technology Center concept for Haiti.

Continued work on building algorithms for tracking water underground in Haiti

Now have ability to split teams between NDC and WP projects

Drilled well at Fond des Negres 120'. Fabricated water tower from scratch, installed well pump and solar panel and pole to power the pump.

Well project morphed into PSST being able to fill second reservoir and have running water in school—ie flushing toilets

Retrofit NDC battery bench for 24 batteries

Installed sprinkler system in Eliane's garden

Initiated a local Feed the Hungry project in Leo-

Visited shelter for severely handicapped children

Presented Water Predication model to DINEPA

Continued sustainability visits

2016

Reviewed SM covenant with Pere Blot

Put on Easter egg hunt at NDC and play on jealousy for the girls

NDC School

New NDC Orphanage & Kids

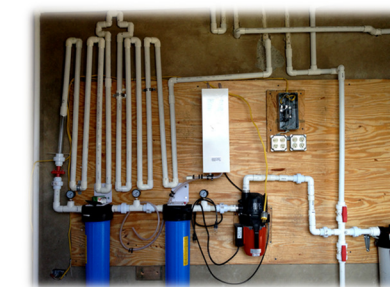

Encouragement from a great report card

Kids are fun anywhere

St. Charles Clinic

Water Purification System

Housing

Furniture built by VoTech Students
